

PDCA – Essential tool to enhance work efficiently!

- ☒ Are you wondering how to make specific and measurable goals?
- ☒ Do you want to know how to make a detailed plan to process goals?
- ☒ Do you want to be able to control progress of the project clearly ?
- ☒ Have you been able to timely find out action to improve situation in order to achieve the goal and plan?

PDCA is a method which helps you to make the specific plan to meet goals (Plan); how to proceed with the plan (Do) and control the implementing process (Check) and after that, you can improve and make the next action steps (Action). The course could provide you not only the meaning of PDCA but also specific practical activities to apply to the reality of work.

Implementation of PDCA Cycle

Target: Staff, supervisor and group leader

Training Venue: At client's company as required (2 days)

Objectives

- Understand the importance of implementing PDCA Cycle (Plan – Do – Check – Action).
- Be able to apply PDCA Cycle to accomplishing daily tasks and improving work efficiency.

Content

Part 1: What is PDCA Cycle?

- The definition of PDCA Cycle
